

Charm for Luck in Business

No matter how excellent your business ethics are, there are many factors beyond your control that can make things go wrong. Bad mouthing, business partners not being in the right mindset, key staff members getting sick and stalling the important processes when you need everything to run smoothly most... To minimise the chances of those kinds of things happening, you may want to achieve a solid luck boost. This charm can be kept at your workplace for as long as you need it. If you work hard, it attracts good luck and prosperity to the business, as well as protects you and your colleagues from any evil spirits in the office.

Best moon to cast:

- *waxing moon, full moon*

Objects needed:

- *A handful of large, unbroken bay leaves*
- *A green ribbon*
- *Three gold coins*
- *Blank piece of parchment (baking paper works well)*

How to cast:

1. *Gently crumble the parchment so it's pliable, then flatten it with your hands*
2. *Place the bay leaves and the gold coins in the middle*
3. *Fold the sides over then tie the green ribbon around it*
4. *Place your right index finger on the charm and close your eyes*
5. *Spend 5 minutes meditating on and visualising your business goals*
6. *Hide the charm at the office - behind your computer, inside a safe or a register, or anywhere else, just make sure it stays safe and hidden.*
