

Good Luck Talisman

Good luck talismans can be a powerful tool to attract happiness, creativity and internal resources required to achieve your goals - however, there are two main conditions when it comes to performing these rituals.

Firstly, your intentions should be good, with no harm intended to anyone or anything - this is simply how good luck works.

Secondly, good luck talismans don't tend to work unless the person using them is putting in the effort and hard work to reach their dreams. Good luck isn't something generated from thin air - it comes from a person's skills, actions, experience and knowledge applied at the right time and place. Your talisman will help you find the right moment.

Best moon to cast:

- *Waxing moon, Full moon*

Objects needed:

- *An object you want to transform into your lucky charm, such as a piece of jewellery. It can be anything but needs to be small enough to be carried around discreetly at all times.*
- *Three gold-coloured coins*

How to cast:

1. *Arrange the coins in a triangle on the floor and place the future talisman in the middle of the triangle.*
2. *Touch each coin three times with your dominant index finger, and say the following three times: **I ask the spirits one by one, To inhale luck in my new talisman***
3. *Your good luck talisman is now ready*
